

## INTERNSHIP OPPORTUNITY IN HANOI, VIETNAM

DK Engineering is a Danish owned engineering company incorporated in Vietnam since 2004.

We primarily provide our MEP services to international technology companies for industrial and infrastructure projects.

We have a proven internship program please see: <http://www.dkengineeringltd.com/internships/>

We are currently looking to offer qualified candidates 2 positions as intern in our company.

One position starting 1<sup>st</sup> June 2015 and one start 1<sup>st</sup> August 2015 or as it fits into the students program.

The intern shall be attached to our engineering group consisting of Vietnamese and international engineers and managers.

We are performing BIM MEP modeling for large scale projects for industrial point cloud modeling and public building BIM MEP.

We look to invite students on the “Bygningskostruktoer” study to apply for internship position in our company for a 6 months stay in our engineering resource office in Hanoi, Vietnam.

The tasks for the internship will include but not be limited to working with BIM Revit:

- Re-evaluate BIM manuals
- Introduce new toolboxes
- Make system structuring in accordance with latest concepts and project organization
- Be part of the implementation engineering team and add and share new ideas
- Share experience with BIM engineers concerning CAD software

We expect the student to draft his/her own program for the internship period based on the above.

For more information on our company please visit our web site at [www.dkengineeringltd.com](http://www.dkengineeringltd.com)

We offer attractive independent working conditions in an organization counting +40 staff and a relaxed and comfortable atmosphere with reasonable financial compensation including international travel, accommodation, local transport and an amount for daily allowance.

Please contact the undersigned for a Skype interview:
